

2026 CATALOGUE

ABOUT US

WHAT IS PESHTEMAL?

The peshtemal traces its origins back to the traditional Turkish bath, where it was used as a lightweight cloth to wrap and cover the body. Over time, it evolved beyond the hammam and became a versatile essential — used at the beach, in saunas, by the pool, during travel, and within everyday living spaces.

Defined by its flat weave, soft texture, and refined simplicity, the peshtemal is both functional and timeless. Woven from 100% natural fibers, it offers exceptional absorbency while remaining lightweight and breathable. Unlike conventional terry towels, peshtemals dry quickly, fold effortlessly, and travel easily. Today, they are embraced not only for bathing rituals, but wherever life meets water.

OUR MISSION

At ILMA, our mission is to create textiles that honor tradition while embracing modern living. We are committed to offering high-quality pieces crafted from natural fibers and designed for everyday rituals — whether at the beach, in a spa, at home, or on the move. Each ILMA peshtemal is made to bring balance, texture, and effortless comfort into your lifestyle.

OUR VISION

Our vision is to build a globally recognized textile brand rooted in authenticity, simplicity, and sustainability.

We aim to design timeless, breathable, and environmentally conscious pieces that move with you — not confined to seasons or spaces. Through thoughtful craftsmanship and a refined aesthetic, ILMA seeks to redefine modern textile essentials.

OUR ENVIRONMENTAL COMMITMENT

We believe in responsible creation.

Our peshtemals are woven from natural cotton and other eco-conscious fibers such as linen and bamboo. By prioritizing sustainable materials and mindful production practices, we strive to minimize environmental impact and support a more balanced future.

OUR CERTIFICATES

At ILMA, we hold various certifications that demonstrate the quality, safety, and reliability of our products. These certifications allow us to assure our customers that every ILMA piece meets high international standards and is produced with careful attention to quality and responsibility. They reflect our commitment to offering textiles that are safe, durable, and thoughtfully made.

For more detailed information about our quality policies, technical specifications, and compliance standards, we invite you to review our product documentation.

At ILMA, we aim to enhance everyday living by bringing together comfort, health, and refined craftsmanship. We look forward to building lasting partnerships and adding value to your life through our textiles.
